Work experience

- 2013– **Software Engineer**, *Spawngrid*, Vancouver, BC (working remotely).
Bex.io. Duties:
- Integrating project with an automated deployment system
 - Automatization of initial deployment using hypervisor hosts
 - Development and implementation of integrity validation algorithms
 - Implementation of distributed system components in Elixir
- 2012–2013 **Senior Erlang Developer**, *Inbet*, International (worked remotely).
Erlang/Elixir programming.
- Implementation of distributed systems in Erlang/OTP and Elixir
 - Code reviews
 - Application architecture
- 2011–2012 **Software Engineer**, *VeryPositive*, Riga.
Java and Android programming.
- 2011–2012 **Software Engineer**, *VeryPositive*, Riga.
Erlang programming.
- 2009–2011 **Software Engineer**, *DSW*, Riga.
Banking systems.
- Built in C#.NET with extensive use of T-SQL
 - High load system operating on big data
 - Interconnection with legacy systems
 - Design and implementation of complex algorithms in stored procedures

2008–2009 **Software Engineer**, *VeryPositive Software*, Riga.

KS Storage Management system.

- ERP/Accounting solution
- Component-based architecture

2007–2008 **Software Engineer**, *VeryPositive Software*, Riga.

Professional.ru.

- Built in PHP/MySQL
- High load system architecture and optimization
- Statistical data algorithms
- Sphinx indexing

Recent individual projects (2013)

- Dyntap My take on encrypted network stack implementation with dynamic routing and encryption.
- Saloon2 Rapid development web framework built on top of Cowboy HTTP server re-written in Elixir.
- FUbbit Wrapper and deploy scripts for official RabbitMQ Erlang client that works well with rebar and Elixir.

Recent contributions (2013)

- Elixir Original pretty printing implementation based on Hughes-Wadler document algebra.
- Ecolines Reported serious vulnerability in Ecolines ticket booking service that got confirmed.
- Ybot Added missing features and refactored IRC protocol implementation.
- WPT Implemented Erlang/Cowboy module in a HTTP benchmarking framework.

Recent competitions (2012)

- Spawnfest Team HINT, 3rd place
- ICFPC Team TBD, 25th place

Education

2008 **Secondary School #22**, *Riga*.

Interests

- Programming <http://github.com/manpages>
- Math and CS Founder of "M/CS Student Club of Riga"
- Music Progressive rock, Art rock
- Sports Ice Hockey, StarCraft II

Personal information

- Age 24
- Marital status committed relationship
